Heliport Variable Lighting Controller

The AE-HP-DC is designed for heliport lighting control with variable intensity. This model is designed for inclement weather and is water resistant, UV resistant, and protected against electrical surges.

Compliance

Complies with ICAO, FAA, and CAP427 standards

Features

Electrical

- 120VAC input with customisation available
- 15kA to a max of 40kA surge protection
- Overvoltage protection

System Design

- Adjustable 3-stage light intensity

SPECIFICATIONS

Electrical Characteristics

Operating Voltage 12VDC, 48VDC, 110VAC, 240VAC, etc.

Physical Characteristics

Body Material Stainless steel
Overall Size (mm) 300x400x500 (customisation available)
Weight (kg) 5 (customisation available)
Product Life Expectancy ≥ 10 years

Environmental Characteristics

Temperature Tolerance ($^{\circ}\text{C}$) -55 - 70
Humidity Tolerance 0 – 95%
Max Wind Speed Tolerance 80 m/s
Water Resistance IP65 Water Resistant
